UPPARA HEMANTH

Java Developer (Fresher)

MCA Graduate

9346372289 upparahemanth3@gmail.com Kurnool

ABOUT ME

MCA graduate with a good understanding of Java programming and object-oriented design. Highly motivated, a fast learner, and committed to improving technical skills. Seeking opportunities to work on real-world Java projects and develop as a software engineer.

EDUCATION

Sri Venkateswara University, Tirupati | 2023-2025

Master of Computer Applications (MCA)

Studied core subjects such as Object-Oriented Programming and Database Management. Worked on academic projects using Java and SQL, gaining hands-on experience in writing logical code, handling data, and solving realworld problems.

St. Joseph's Degree College, Kurnool | 2020-2023

Bachelor of Science (B.Sc.)

Studied core subjects such as Object-Oriented Programming and Database Management. Worked on academic projects using Java and SQL, gaining hands-on experience in writing logical code, handling data, and solving realworld problems.

PROJECTS

DIGITAL BANKING MANAGEMENT SYSTEM (CONSOLE APPLICATION)

Tech Stack : Java, Servlets, JSP, JDBC, MVC, MySQL

- Developed a secure web-based banking application with user authentication and session management.
- Implemented deposit, withdrawal, and fund transfer modules with transactional safety.
- Designed MVC architecture with Controller, DAO, and Model layers for scalability and maintainability.
- Enhanced system reliability using validation, exception handling, and database constraints.

HOSTEL MANAGEMENT SYSTEM

Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Built a full-stack hostel management platform in a team environment.
- Developed React-based dashboards for student onboarding, room allocation, and fee tracking.
- Integrated secure REST APIs with JWT authentication and role-based access (Admin, Warden, Student).
- Ensured smooth data flow and a responsive user experience through effective frontend-backend integration.

SKILLS

Programming: Java, JavaScript
Programming Concepts: Object-Oriented Programming (OOP), Exception Handling, Interfaces
Java Technologies: Java SE, JDBC, J2EE, Servlets, Spring Core, Spring Boot, Spring JPA, Spring MVC, REST API
Frontend Technologies: HTML, CSS, JavaScript, React.js
Architectural Concepts: MVC Architecture, SDLC
Database: MySQL, CRUD Operations
Frameworks/Tools: Apache Tomcat, Eclipse, VS Code

ACHIEVEMENTS/AWARDS

- Active NSS Volunteer, participated in cleanliness drives, blood donation camps, and community awareness programs on education.
- Contributed to social welfare initiatives, interacting with diverse communities and developing teamwork and leadership skills.
